

Dear [FIRST NAME],

As you know, I am a longtime supporter of the charity Solving Kids' Cancer (SKC), which focuses on childhood cancer research. During these unfortunate times, while we are all affected by this pandemic, we are seeking ways to continue our fundraising efforts for this much-needed cause. After all, children are still being diagnosed daily and others continue to battle the disease.

Each May, we host our largest fundraising gala in New York City. We, along with many others, have been forced to cancel critical fundraising events. Although the world is on pause, the disease is not and Solving Kids' Cancer is still hard at work, developing urgently needed new therapies for kids battling the most fatal childhood cancers.

They need our help. Solving Kids' Cancer relies on warmhearted donors to fund these research projects & I'm asking that you consider contributing to the cause.

[GIVE HOPE AND LOVE LINK](#)

Thank you in advance and I look forward to hearing from you.
I hope all is well with you and yours and I hope to see you SOON.

All my best,
[YOUR NAME]
